

AMBADY UNNIKRISHNAN

Cherumuttathu, Kottayam, Kerala, 686601 | +91 8137922887 | ambadyunnikrishnan2000@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

- Motivated Software Engineer & Front-End Developer skilled in Python, JavaScript, SQL, and scalable system design.
- Proficient in Object-Oriented Programming, MVC frameworks, and performance optimization.
- Experienced in debugging, troubleshooting, and enhancing software architecture.
- Strong team player with experience in mentoring and cross-functional collaboration.
- Passionate about building secure, high-performance applications using modern technologies.

TECHNICAL SKILLS

- **Languages:** PHP, Python, JavaScript, Java, C++
- **Development:** OOP, MVC (Django), REST APIs, Agile methodologies
- **Databases:** MySQL, SQLyog, CRUD operations, normalization
- **Front-End:** HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, Tailwind CSS
- **Networking:** Client-server architecture, HTTP protocols
- **Tools:** Git, VS Code, PyCharm, Visual Studio, TensorFlow, MS Office
- **Operating Systems:** Windows, Linux

INTERNSHIP EXPERIENCE

Corezone Solutions

Ernakulam, Kerala

Web Developer Intern

Jan 2025 – May 2025

- Developed and optimized high-traffic web applications using Django, PHP, and SQLyog.
- Implemented secure authentication systems and integrated RESTful APIs.
- Participated in agile sprints, code reviews, and maintained technical documentation.
- Led the development of a Disaster Relief Management System with weather forecasting and emergency coordination features.

PROJECTS

Online Car Showroom Web Application

Technologies: PHP, MySQL, JavaScript, HTML, CSS, Apache Server

- Built a responsive web platform for browsing, booking, and inquiring about vehicles.
- Integrated real-time vehicle listings and inquiry forms for streamlined user interaction.
- Designed UI with HTML, CSS, and JavaScript for optimal cross-device performance.
- Developed admin modules for managing inventory, customers, and queries.
- Implemented MySQL database for secure data storage and retrieval.
- Deployed via Apache server to ensure robust performance and uptime.

Disaster Relief Management System

Technologies: Python, Django, SQLyog, Android (Java/Kotlin), REST APIs

Jan 2025 – May 2025

- Designed and deployed a disaster response platform with weather analytics and live coordination tools.
- Built modular architecture for admin, volunteers, public users, and emergency responders.
- Developed an Android app enabling emergency support requests and donations.
- Integrated AI-driven alerts for disaster forecasting and automated camp stock tracking.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, Bootstrap

Live: ambadyunnikrishnan.netlify.app

- Created an interactive portfolio site to showcase projects, skills, and certifications.
- Designed an intuitive interface with animations and form validation using JavaScript.
- Structured sections for experience, projects, certifications, and contact information.
- Linked GitHub, LinkedIn, and achievements to boost professional visibility.
- Deployed using Netlify for fast and reliable global access.

EDUCATION

Bachelor of Computer Applications (BCA) – Ettumanoorappan College, MGU

Specialization: IT and Software

2022–2025

CGPA: 6.80, Grade: B+

SOFT SKILLS

- Strong problem-solving and debugging capabilities
- Effective communication and leadership
- Agile collaboration and cross-functional teamwork
- Experience mentoring junior developers and conducting code reviews
- Project management and stakeholder coordination

CERTIFICATIONS

- Web Development Intern – Corezone Solutions (2025)
- Web Development Internship – TechSonix Solutions (Apr 2025)
- Web Development Training – Nesote Outsourcing (Apr 2025)
- Python (Basic) – HackerRank Certification
- Python Fundamentals – Great Learning (2025)
- Project Management Virtual Experience – Accenture via Forage (Apr 2025)
- Solutions Architecture Simulation – AWS via Forage (Apr 2025)
- Data Analytics Simulation – Deloitte via Forage (Apr 2025)
- Full-Stack Development – Simplilearn SkillUP (May 2025)
- Mastering TensorFlow – Simplilearn SkillUP (May 2025)
- Build RAG Chatbot with Python – LetsUpgrade (May 2025)
- Build Weather App with React – SkillEcted Campus (May 2025)
